

JOSEF ADAMČÍK

josef.adamcik@gmail.com

ANDROID DEVELOPER, SOFTWARE DEVELOPER

Profile

Software development is a craft and I seek mastery since 2006.

Skills

Android development

I am a skilled Android developer with deep knowledge of Java and Android platform. I keep eye on new trends and technologies (e.g. Kotlin, React Native).

Back-end development

I have experience in API design and back-end development in PHP (Symfony) and Java (Spring, Hibernate, JSF).

Web front-end development

Although my skills in this area are a bit outdated, I had had a strong knowledge of Javascript and related technologies in the times before React changed everything.

Technical

Android	Kotlin	Java
Javascript	PHP	Symfony
SQL	HTML	CSS
Spring	Hibernate	JSF, RichFaces
PostgreSQL	MySQL	Python
Django	Drupal	Git
SVN	Linux	

Languages

Czech
native

English
proficient

German
beginner

Experience

Smarcoms

Software developer

2006-2018

I worked for Smarcoms for almost 12 years. I started as a student and continued my career in the company after I had finished my degree. The company changed a lot during all those years and I met a lot of developers, learned a lot of technologies and participated in many interesting projects.

Education
